

Charlotte Newland

Foundation Paper Piecing with Freezer Paper

First broadcast as an Online Interactive Workshop via Zoom on 24.06.20

Our popular sew-it-all tutor, Charlotte Newland combines the **Foundation Paper Piecing (FPP)** technique with freezer paper so that you can have all the FPP advantages of accuracy and consistency, without the downsides of sewing through paper, printing lots of templates, or having to pick out bits of paper when you tear the template away. With freezer paper you'll be able to reuse your templates many times. Freezer paper is a versatile paper used in many crafts. It has a matt side and a shiny side, the shiny side sticks to fabric when you iron it and is easily removed leaving no residue.

Techniques covered in this *Online Interactive Workshop* are as follows:-

Charlotte will start the class with an easy Economy Square pattern and show you how the freezer paper technique works with Foundation Paper Piecing. Then, she'll move on to the *Goosing Around* FPP pattern by Kelly Liddle of *Jeli Quilts* (included with the fee) and you'll be able to sew along, create wonderfully sharp points and concentrate on choosing fabric colours for your radiating triangles! The finished block makes a great cushion or wall hanging, or you could make multiples for a quilt. In the UK, check out eBay and Amazon for sheets of freezer paper. Also available as a roll (*Reynolds Freezer Paper*) from online quilt shops. USA sewers/sewists, you are likely to have this already!

Materials/Equipment needed for this *Online Interactive Workshop* is as follows:-

Freezer Paper Sheets or Roll
Pencil
Ruler
Paper Cutting Scissors
Rotary Cutter
Iron
Economy Block pattern printed at 100% (*to be supplied by CraftyMonkeys*)
F8 (Fat-Eighth: cut it in two ways - either 11" x 18" or 9" x 22"; either cut will work) of three fabrics for economy block
"Goosing Around" pattern printed at 100%
0.5m background fabric for Goosing Around
Scraps of 16 Coloured Fabrics for Geese (*Charlotte used a rainbow*)
